

6070/V

Transparent polycarbonate visor to protect the face and eyes from splashes of liquids and molten metals, as well as infrared radiation. Can be worn over various types of prescription glasses and respiratory protection systems

Lens marking (EU) 2C-5/4-5 U 1 BT 9 R CE Conditions of use: IR

Areas of use

Liquids (3), Molten metals and hot solids (9)

Lens technology: Scratch-resistant, Mirrored lens

Lens colour

Transparent, Gold

Lens material

Polycarbonate

Standards

EN166, EN170, EN171

Scale number (2C-5), (4-5)

Medium-energy impact (B)

Impact resistance at extreme temperatures $-5^{\circ}/+55^{\circ}$ C (T), Increased infrared reflectance (R)

Optical class (1)
